## EXAMINER'S COMMENT

### *Allowable Subject Matter*

1. Claims 1 and 3-11 are allowed. Applicant reserves the right to file a divisional application directed to the cancelled claims.

### *Examiner's Statement of Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance:
3. Based upon the amendments made to the claims in the amendment filed on June 9, 2009, Claims 1 and 3-11 are allowed.
4. The reason that the claims are allowed is that none of the prior art references of record teach or suggest a method for producing a layer compound having at least two security features and comprising a first carrier foil with at least one first security feature and first register marks and a second carrier foil with at least one second security feature and register marks, that requires the steps of joining the first carrier foil to the second carrier foil, with at least one of the two carrier foils being under tensile stress, at least one of the carrier foils being controlled in the longitudinal direction and the transverse direction with the help of the first and second register marks, and in which the first and second security features are disposed in register to each other, where the

controlling of one of the carrier foils is effected by stretching the carrier foil in the longitudinal direction.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
